

User Stories	Criteria	Passed	Failed	
As a user on the main page, I want to look up ways to contact a specific person	<ul style="list-style-type: none"> - Click on the search bar and type in any information you know about a resident to find them and either press "enter" on the keyboard or click on the "filter" button. - If you need to search again you can click the "search again" button to clear the search bar. - You can click the "details" button on the right of the resident to get all the information on a separate window. 	X		
As a user I want to be able to sort existing residents to make finding a resident easier and quicker	<ul style="list-style-type: none"> - On the index/main page you can click on "first name", "last name", "address", etc., at the top of the table, to quickly sort existing residents in ascending or descending order in the application. 	X		
As a user I want to be able to filter information based on whether it is a resident or business (yellow and white pages)	<ul style="list-style-type: none"> - Click on white pages or yellow pages tab at the top 		X	We did not have time to implement this feature and therefore chose to delete it from the requirements of the app.
As a user I want to be able to quickly email the resident by clicking on a hyperlink.	<ul style="list-style-type: none"> - Click on the email hyperlink on the main page or in their details. This will open a new email window for you that includes the email address for you. 	X		
As a user I want to be able to add my information into the app, so people know how to reach me	<ul style="list-style-type: none"> - Click on the "Create New" button at the top of the main page and enter all information you want people to have and click "create". 	X		
As a user I want to be able to delete myself as a resident when I move out of Bikini Bottom or if someone living with me moves out	<ul style="list-style-type: none"> - On the main page next to your name, you can click on the "delete" button. From there you can click on the "Delete Button" 	X		
As a user I want to be able to edit my contact information if anything changes.	<ul style="list-style-type: none"> - Find yourself in the table with sorting or filtering, then click on the "edit" button next to your information. - Edit the information you need to edit, then click "save" at the bottom. 	X		
As a user I want to be able to see a picture of a resident to make sure I am contacting the correct person	<ul style="list-style-type: none"> - You would see a picture displayed when you click on the "details" button. 		X	We chose not to implement this as we have already formatted our individual pages. This would have required more time as we would want the residents to be able to add their own photos.
